PRIME SERIES BENCH ASSEMBLY

STEP 1

Position the packaged workbench on a stable table or elevated work surface to allow easier assembly access. Open the carton flaps and fold them outward, but keep the workbench inside the packaging during assembly.

STEP 2

Locate the pre-drilled mounting holes at both ends of the work surface. Align the upper frame assembly with the hole pattern and install the supplied screws into all designated mounting points.

STEP 3

Insert the adjustable leg assemblies into the upper frame brackets. Adjust the legs to the preferred working height, then secure them using the provided fasteners. Tighten all hardware firmly.

STEP 4

Align the rear support brace between both leg assemblies and install using the supplied hardware. Ensure all fasteners are tightened securely.

STEP 5. INSTALL ACCESSORIES (IF APPLICABLE)

If additional accessories were ordered, proceed with their installation according to the provided instructions.

- Drawers
- Uprights
- Overhead Light
- Roll Holder
- Adjustable Top Shelf
- Bin Box Rails
- Back Mounted Power Strips
- Lower Bin Shelf

STEP 6

With assistance from another person, carefully rotate the workbench into its upright operating position. Assembly is now complete.
